EXERCISE – 3

Question

Execute and display the results of the following commands in Kali Linux Operating System:

1. Tree
2. Head
3. Tail

Aim:

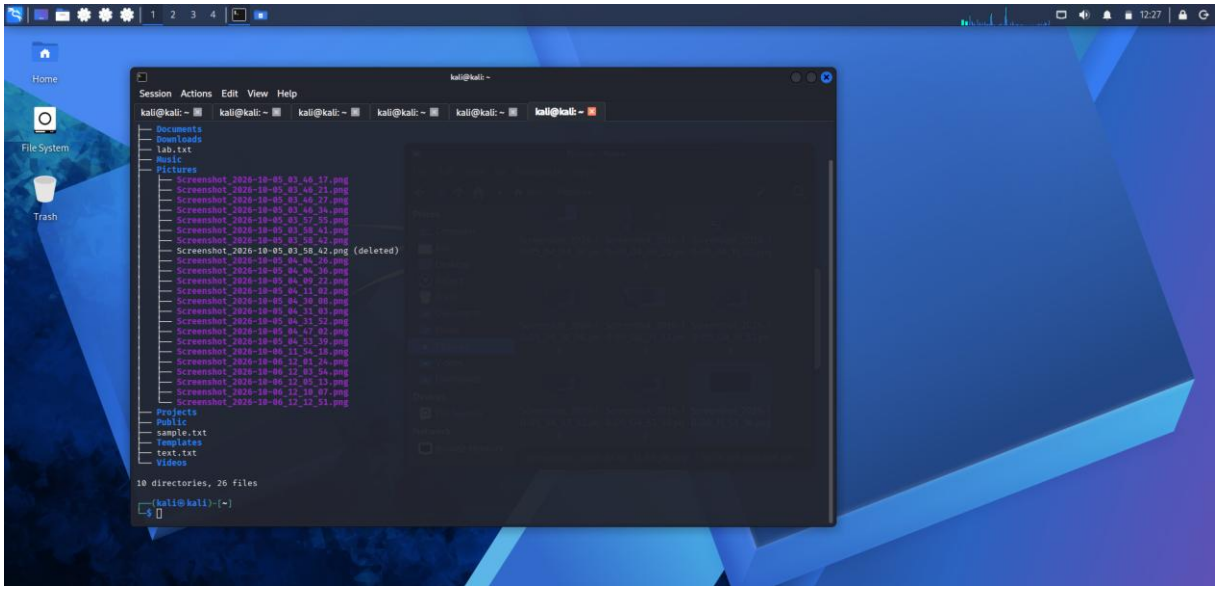

To execute and display the results of the rm, users, and tree commands in Kali Linux.

1) Tree

Command:

Tree

Use:
The tree command is used to **display files and directories in a tree-like structure**.

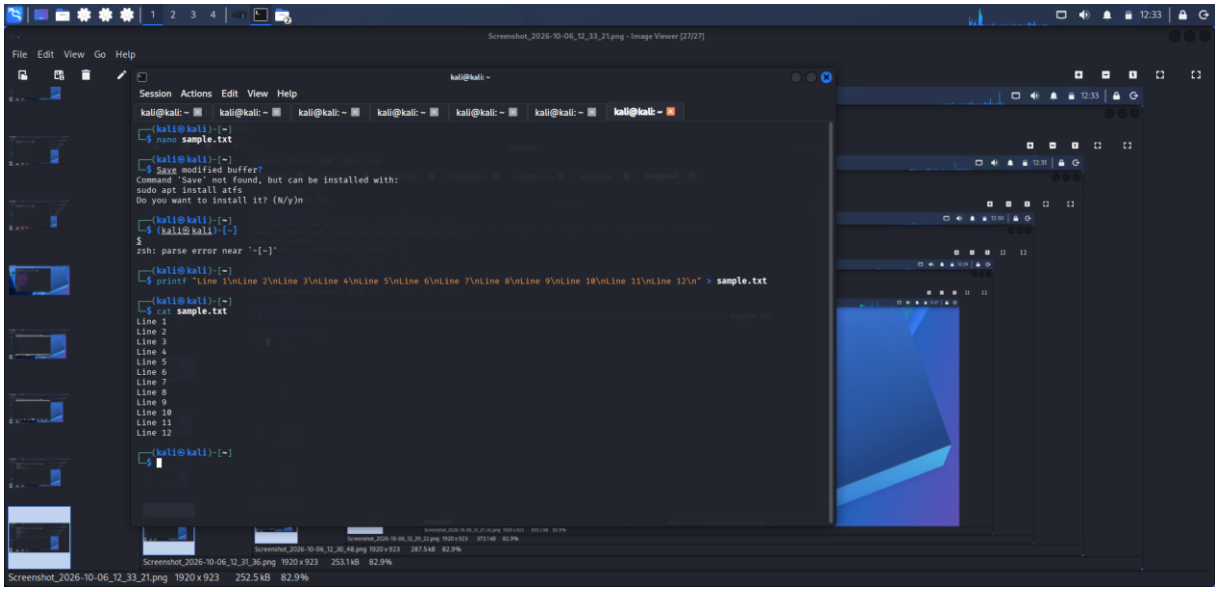

2) HEAD

Command:

head sample.txt

Use:

The head command is used to **display the first few lines of a file**. By default, it displays

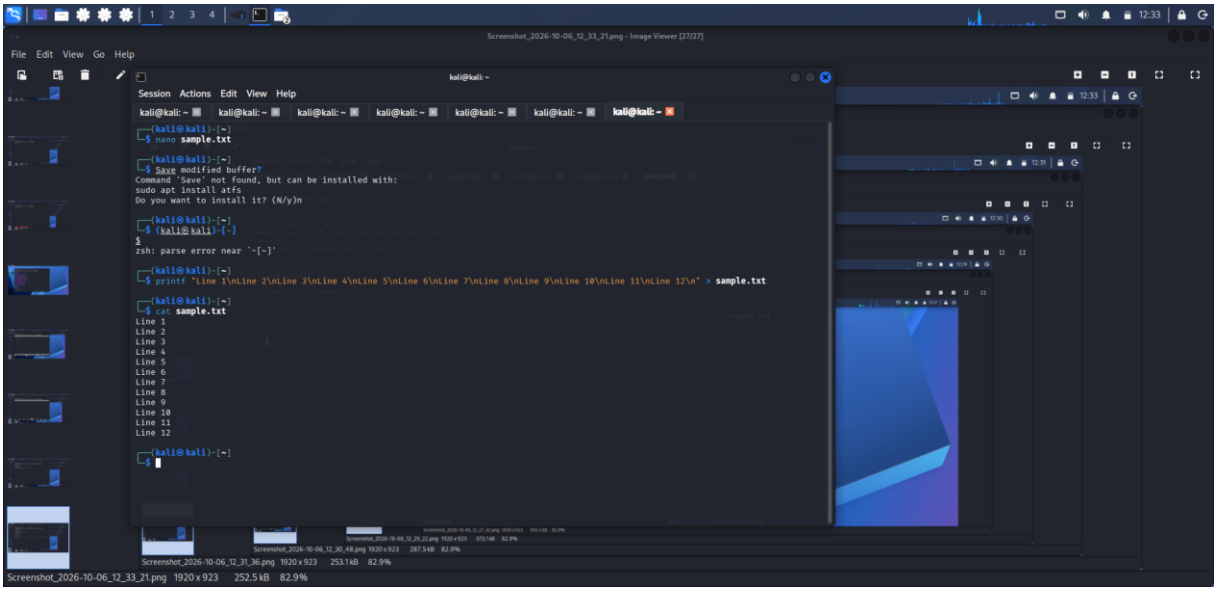

3) TAIL

Command:

head sample.txt

Use:
The tail command is used to **display the last few lines of a file**. By default, it displays

Result

Thus, the rm, users, and tree commands were successfully executed in Kali Linux and their results were displayed.
